WRANGELL, ALASKA, THURSDAY, NOVEMBER 7, 1912

\$2.50 PER YEAR, 10c. PER COPY

## Woodrow Wilson and Thomas R. Marshal Win Out In Presidential Race

### Vice-President Sherman Dies At Utica Home

In his home in Utica New York, at 9:40 on the evening of October 30, James Schoolcraft Sherman, Vice-President of the United States succumbed to chronic brights disease excited to new activity by the Republican campaign work in which Mr. Sherman was taking an active part.

Funeral services were held Saturday afternoon November 2. President and cabinet members were present.

### Bishop of Alaska Visiting Wrangell.

The Rt. Rev. P. T. Rowe, Bishop of Alaska, was a passenger from the north on the Humboldt Wednesday and will spend a few days in Wrangell.

### Non-Partisans Get Best Of Tuesdays Election

The results of the local, Ketchikan and Petersburg election awards the Non-Partisan ticket, with the exception of A. G. Shoup, of Sitka who was generally turned down by his party, a good plurality in the Alaska Legislature race. The Socialist ticket runs second and the Progressive Home Rule Ticket third. F. W. Thompson, of Craig, polled 83 votes and made the greatest inroad on the Non-Partisan ticket, his name being substituted liberally for A. G. Shoup.

Locally the election was a big affair and called out more voters, many of whom were challenged, than any previous contest. N. J. Svindseth, who is high man in the three towns of Ketchikan Wrangell and Petersburg, ran several votes ahead of his ticket. Dr. Dawes, the Home Rule candidate

pulled 36 votes in Wrangell, nearly double the amount of Wickersham's vote in the Delegate Election last August.

The Socialists cast nearly a solid vote, and all received 132 or 135 with the exception of Bland in Ketchikan who drew about twenty from other politics. Wrangell had no Socialist candidate in the field.

Owing to the break in the cable no news from Douglas, Juneau, Haines and Skagway has reached this section. Owing to the fact that the Home Rule vote is biggest farther north and the Socialist vote smaller in proportion, the returns may tighten up the contest for seats in the legislature from the First Division.

Candidate Ketchikan Wrangell

#### For Senators

Tripp	116	70
Tanner	124	69
Valentine	56	38
LeFevre	50	38
Swanson	95	11
Bland	108	10

#### For Representatives

Ingersoll	128	69
Shoup	75	23
Stubbins	122	63
Svindseth	121	84
Reck	55	37
Thomas	71	37
Dawes	54	36
Olson	54	35
Tweit	93	10
Nolan	93	10
Heath	92	10
Stukey	91	9

### Latest Bulletin

Latest—3:30—The electoral vote now stands:— Wilson, 420; Roosevelt, 96; Taft, 15. Roosevelt carried Illinois, Washington, Iowa, Kansas, and Michigan. Taft carried Utah, Vermont and Wyoming. Three states not heard from: Wilson carried all others.

### Treadwell Asiatics Leave For War.

About fifty Asiatics who have been at work in the Treadwell gold mine dropped work at the close of the month of October, drew their money and took passage on the Jefferson en route to the European seat of war to take arms against the hated Turks. Some thousands of Greeks left the mine for the same purpose in the middle of October and more will follow after the next pay day.

### Dem. Candidates Win Say Meager Returns

Meager wireless returns from the Presidential race give Wilson and Marshal the Great Place in the United States Government.

Gleanings late yesterday gave Wilson 293; Roosevelt 74; Taft 54 electoral votes and predicted an overwhelming democratic majority. The "Solid South" and New York went for Wilson, Taft carried New Hampshire and Vermont, Roosevelt carried Illinois by 100,000 and Seattle by 30,000 plurality.

This with a wireless report caught late Tuesday night, that Roosevelt and Wilson were running neck and neck in California constituents the news received in Wrangell and tallies with the general hazard as to the results. Wilson having been conceded the victory by a majority of readers and thinkers here.

### Wrangell Voters Explore Scow Bay.

Several patriotic Wrangell voters, some taxpayers and businessmen, deprived this election of suffrage, because of their residence on the waterfront or their launches, boarded the gasboat, Mabel, Tuesday, and bucked the current of the Wrangell Narrows to reach the voting place at Scow Bay, some 35 miles from Wrangell; and literally "swore in" their vote by giving their pedigree and previous conditions of servitude. Chas. Darwell and T. Anderson, operated the Mabel on the trip and the passengers were; J. Mol, M. Katzenmeyer, F. E. Gingrass, H. Taylor, J. Martindale, F. Stewart, Dick Nestrup, Wm. Fletcher and P. E. Timmons of Craig.

For Sale—Gasboat—Inquire at Wrangell Steam Laundry.

## Peppermint Farming.

Most of the world's peppermint is grown on peppermint farms in Michigan. Over 300,000 pounds of peppermint oil, worth \$5 a pound, is produced annually from the moist and black soil of southwestern Michigan.

## Order.

Order is the sanity of the mind, the health of the body, the peace of the city, the security of the state. As the beams to a house, as the bones to the microcosm of man, so is order to all things.—Southey.

## How She Felt.

Mrs. Black—Sam Johnson done left his wife 'bout six mont's ago.

Mr. Black—De she t'ink he am neb-bah comin' back?

"Waal, she jest beginnin' to hab hopes."

## Elegance.

Elegance is something more than ease. It is more than a freedom from awkwardness or restraint. It implies, I conceive, a precision, a polish, a sparkling, spirited, yet delicate.—Hazlitt.

## The Living.

Sis—Why did you throw up your situation, Ernest? Brother—Because I am going to get married. She—But what will you live on—love? Brother—Oh, no! We are going to live on my love's father.

## Up to Him.

"What would you do, Fraulein Irma, if I were suddenly to give you a hug and a kiss?"

"Oh, I don't know, I'm sure! I've never been asked. What would you advise me to do?"—Fleegende Blatter.

## Another Daily in Juneau.

The Sentinel office is in receipt by the Humboldt of the first two copies of the Alaska Daily Empire the new daily paper published at Juneau Alaska. J. F. A. Strong the editor and proprietor of the Empire has had much experience in the game in Alaska having been connected with several camp publications in the north.

## SIRS AND SONS.

W. C. Clark, Cleveland, says a simple diet has enabled him to live 101 years.

Thomas Fortune Ryan told Richmond (Va.) tax officials recently that his income is only \$152,000 a year.

When Major Daniel W. Arnold retired the other day there was left in the United States army but one officer who served in the war between the states. He is Colonel John L. Clem.

King George has bestowed the commission of general in the British army on Louis Botha, who some ten years ago was fighting Great Britain in South Africa with all his might. General Botha is now the premier of the union of South Africa and a loyal subject of the king.

Dr. Emanuel Lasker, the famous chess player, is living at a lighthouse off the island of Rugen, Germany, in order to secure complete quiet for the completion of a work dealing with the philosophical side of chess. He reports that he finds his isolation ideal for purposes of concentration and relaxation.

W. Bramwell Booth, the new leader of the Salvation Army, has been since 1880 chief of staff and the "man behind the gun." He is a big man, standing six feet high, and possesses striking facial characteristics. He has a tremendous capacity for work, a wonderful grasp of detail, a broad scholarship and is noted as a public speaker as well as a thoughtful writer.

## Largest Sidewheel Steamer.

Very interesting is the continual increase in the size of both freight and passenger steamers which is noticeable on the great lakes. The new steamship, City of Detroit III, which is now in commission, is the largest sidewheel passenger steamship in the world today. In the history of steamship construction she has been exceeded only once, and that was by the Great Eastern, which was 692 feet in length. The Great Eastern, however, was both paddle and screw propelled. The City of Detroit III is 500 feet over all, 55 feet broad molded, 100 feet over the guards, and she has a molded depth of 22 feet.—Scientific American.

## Moon's Influence on Rainfall.

A new instance of supposed connection of the moon with rainfall claims the support of highly scientific authority. Heavy rains are said to occur in South Africa at intervals of nineteen years, and this period coincides with the lunar cycle of maximum north and south declinations. E. E. Nevill, late director of the Natal observatory, finds an explanation in the moon's attraction. The theory is that a permanent cloud belt is drawn along by the moon and that as the moon nears its farthest point north the mass of clouds is made to impinge on the mountains in Natal, giving excessive rainfall.

## Most Accidents on Monday.

The time and season of accidents has been a subject of investigation in Germany. The months show little difference in the frequency of accidents, and the month of greatest number, October, rises only to 9.39 per cent of the year's total. The days of the week have much greater difference. The accidents are most numerous on Monday, supposed to be due to abuse of alcohol on Sunday, and the daily number then diminishes to a minimum on Wednesday, Sunday being excepted, afterward rising steadily to Saturday, which has a record between those of Monday and Tuesday.

## HARDSHIP

The beginning of hardship is like the first taste of bitter food—it seems for a moment unbearable, yet if there is nothing else to satisfy our hunger we take another bite and find it possible to go on.—George Eliot.

Deputy Marshal Wm. F. Schnabel  
Col. Customs F. E. Bronson  
Asst. Fish & Game W'd'n F. H. Gray  
Postmaster J. E. Worden

For professional and tradespeople, see advertising columns.

Mr. and Mrs. T. F. Bush, of Shakan, were passengers in on the Uncle Dan Wednesday.

Bert Tucker has the C & N, boiler bricked up and smoke was seen coming from the new stack yesterday.

Mr. and Mrs. C. E. Tervo and family, who will spend the winter in Victoria, will take passage on May Friday.

Misses Katherine and Margaret Bronson will be passengers south to Seattle on the May Friday. Miss Katherine will continue east to Boston, where she will attend school several years.

Some bonehead recently inserted a plank into the thimble of C. P. Cole's new chimney and pried out several bricks. No one can say whether the above act is by a young or old vandal but interest of the community leads one to hope he is very well advanced in age.

Tea citizens made the trip to Scow Bay Tuesday to vote for their choice of candidates. They were obliged to or not exercise the rights of a citizen. And we can't lay the blame of the 35 mile trip to the polls on the "Trusts". Thirty citizens living on the waterfront should get together now while the Scow Bay incident is still in mind and ask for a voting place near home.

### At St. Philip's Church

"The Future Ascent of Man" will be the theme at St. Philip's Church Sunday evening Nov. 9. All are cordially invited.

The native guild of St. Philip's Church will hold its annual sale of work in the gymnasium, Tuesday next Nov. 12th from 3 to 5:30 P. M. and 7 to 10 P. M.

Plain and fancy articles  
A wonder well.  
Ice Cream.

### Another Smokestack

On Tuesday, something besides suffrage history was made in the town of Wrangell for while the majority of citizens were practicing politics the Columbia & Northern force was erecting a smokestack, the seventh in town, at their power plant now nearing completion. Three of the seven, the Alaska Sanitary Packing Company, the Wrangell Steam Laundry and the Columbia & Northern Fishing & Packing Company, have been erected within the last six months and are objects for optimistic remarks.

### SCHOOL SUPPLIES

WRANGELL DRUG CO.

## Broke Camp For The Winter

McDonald Brathers, who have been logging in this district the past two years, broke camp for the winter and returned to Wrangell the first of the month. They have operated a steam outfit this season on both Kuin Island and Zarembo shores and now have half a million feet of logs rafted ready for delivery from their camp on Kuin.

## Fox Carrying Mining Machinery

The launch Black Fox, carrying mining machinery for a Cassiar outfit, cleared for Telegraph Creek Saturday. E. Kalkins and T. H. Cunningham were in charge for the trip.

## Hydaburg Now A Reservation.

President Taft, by an executive order, which the Juneau land office received Saturday, has made the first Indian reservation in Alaska.

The reservation is in behalf of the young Indians of Hydaburg village, who have, under the direction of Charles Hawkesworth, of the government Indian bureau, established the model Indian village on Sukkwan island. The reservation includes twelve square miles, or 7,833 acres. It embraces a point of Sukkwan island, a small portion of Prince of Wales island and half of another in the strait between Sukkwan and Prince of Wales islands. The conditions of the reservation are of course different from the reservations for the plains Indians, and is merely intended to protect the Indians in the use of the land. Under its terms the reservation is open to any Indian and they may come and go at will.

## Some Petition

The Liberty Bell petition reel, which now contains three quarters of a mile of petitions and which was signed by the children of San Francisco, is on exhibition in the Exposition Building. The children of the public schools numbering near 70,000 have affixed their names and when the schools of the state have contributed their petitions the total number of signatures is expected to reach a million.

James Schoolcraft Sherman was born in Utica, New York, October 24th 1855, and was 57 years of age. He is the fifth Vice-President to die in office. Philander C. Knox Secretary of State, will succeed Sherman as Vice-President for the remainder of the term.

### The Sly Youth.

He—Then you have no objection to admitting we are engaged? She—No. But why do you want to be? He—I'm going away, you know, and it's such a protection when the girls annoy me. —Cleveland Plain Dealer.

## A VALUELESS METAL

Tellurium, a Byproduct of Copper, is Absolutely Worthless.

An immense fortune, according to economic geologists, awaits the man who can invent a use for tellurium, says the Scientific American. This mineral is one of the byproducts of copper refineries and of plants working up gold telluride ores. At present it is all thrown away, as it is absolutely no good to anybody.

Only a few years ago tungsten was in very much the same position as tellurium is now. Then it was found to be highly useful in the manufacture of incandescent lamps and tool steel, till today it would seem probable that with a cheaper supply it will become one of our most potent minor metals.

Selenium is another substance which has just come into its own. Up to a year or two ago no commercially important use for selenium was known, although for some three or four years it was one of the ingredients entering into a secret process in the glass industry. It is now well known among scientists that selenium is an agent in coloring glass red and decolorizing glass by the use of small amounts to neutralize the green of ferrous iron. A French scientist has also utilized it in an invention by which pictures may be transmitted by wire. Like tellurium, selenium is a byproduct derived from the refining of copper. Apparently about twenty tons a year are now utilized commercially.

### Horses For the Tropics.

The endurance and disposition of horses in the tropics seem to depend much upon the color of their hairy covering. Lieutenant Colonel Charles E. Woodruff, army medical officer, several years ago showed the influence of tropical light upon white men and has now pointed out the need of considering color in choosing animals for warm climates. Gray and white horses proved to be most suitable and longest lived. In Manila only the white, gray, roan and yellow have been able to survive the ordinary ailments, and of 100 Chinese mules bought in 1903 for Philippine service only four—with white hair over black skins—lived more than seven years. Of troop horses on review the gray and sorrel are quiet, the bays are excitable and restless, and the blacks seem to be most irritable of all.

### New School Sanitation Plan.

A new idea in school sanitation has been tested by the medical director of Dartmouth college. About five years ago he began making bacteriologic examinations of the air of the college halls and recitation rooms and soon found a great periodic variation in the number of bacteria colonies that developed on the culture media exposed in the usual shallow open dishes. He then adopted the plan of disinfecting with formaldehyde any room showing more than thirty-five colonies or clusters of any kind of bacteria to a dish. This custom has been continued, and the result has been quite striking, the cases of epidemic colds, influenza and bronchitis among the students having been reduced about one-half.

### Repair For Leaking Canoe.

A leak in a canoe may be effectively patched with pieces of cheesecloth, well soaked in liquid shellac, and pasted on the outside of the leak. After allowing this to set for a few hours it will be almost impossible to remove the patch. This is an inexpensive and almost invariably a sure remedy for leaks. When the cloth is dry, paint it over with the same color as the boat, and the repair can scarcely be seen.

### Much Repeated History.

There once was an inebriated grafter Who greeted reproval with laughter. But as time rolled around His record he found Face to face with a solemn hereafter. —Washington Star.

### Up to Date.

Fresh Tourist (in mountain district) —What a backwoods! I'll bet you a dollar, my man, that you can't tell me whether Andrew Jackson is dead or not.

Native—Maybe I can't, but I'll bet you \$100 I can name more 300 and over battlers in either of the big leagues than you can and let it go at that!—Puck.

### Silk Made of Horse Flesh.

German chemists are reported to have succeeded in utilizing fibrous animal refuse, such as the flesh of dead horses, for making artificial silk. Treatment with acids disintegrates the flesh into its ultimate fibers, and these are given a silky appearance, with great durability, by a kind of tanning process. The threads produced greatly resemble those of the wild silkworm and are about two inches long. They may be vulcanized like true silk and can be made air tight and water tight by immersion for a couple of hours in a caustic soda bath under a pressure of four atmospheres. The material seems to promise something cheaper than silk for balloon envelopes, insulation, etc., though attempts to spin the fibers into threads have failed.

### The Logic of Dress.

They stood outside the busy shop And gazed at things displayed. At hats and gowns and lingerie. For widow, wife and maid. "A pretty thing," he said at last And pointed at a hat. "A pretty thing!" she quick returned. "Why, no one's wearing that!"

He remained discreetly silent Till he saw a tailored suit. "There," he cried, "is a corker! That's what I call a beauty!" She turned on him a glance of scorn. A glance that crushed him flat. And the verdict that she uttered was, "They all are wearing that!" —Judge.

### A Prediction Verified.

A fortune teller was arrested at his theater of divination, *al fresco*, at the corner of the Rue de Bussy, in Paris, and carried before the tribunal of correctional police. "You know how to read the future?" said the president, a man of great wit, but too fond of a joke for a magistrate. "I do, M. le President," replied the sorcerer. "In this case," said the judge, "you know the judgment we intend to pronounce?" "Certainly." "Well, what will happen to you?" "Nothing." "You are sure of it?" "You will acquit me." "Acquit you?" "There is no doubt of it." "Why?" "Because, sir, if it had been your intention to condemn me you would not have added irony to misfortune." He was acquitted.—Life.

### All in the Family.

Father whacks the carpet Hanging on the line; Son is playing baseball (he is on the "nine"); Daughter's out canoeing With some jolly friends— Mother washes, boils, cooks, Scrubs and sweeps and mends. —Canadian Courier.

### Pride.

The following anecdote helps to prove that, even among the present Greeks, in the gloomy days of servitude, the remembrance of their ancient glory is not totally extinct:

When Mr. Anson (Lord Anson's brother) was upon his travels in the east he hired a vessel to visit the isle of Tenedos. His pilot, an old Greek, as they were sailing along said, with some satisfaction, "There is was our fleet lay." Mr. Anson demanded, "What fleet?" "What fleet?" replied the old man, a little piqued at the question. "Why, our Grecian fleet at the siege of Troy." —Life.

### Counsel.

If you would be perfect, dear sisters and brothers, Just follow the counsel you give unto others, But if you'd be holy and wondrous and true Just follow the counsel they give unto you. —Cleveland Plain Dealer.

### Willing to Wait.

A Baltimore clubman tells of two convicts who met for a moment alone in a corridor and took advantage of the fact for a hurried interview. Said one, "How long are you in for?" "For life," responded the other. "And how long are you in for?" "Twelve years," responded the other. "Then," said the lifer, cautiously extracting a letter from his hiding place as he glared fearfully around, "take this and wait it for me when you get out." —Baltimore American.
